## ANA ASLAN- the first woman ambassador for the fight against aging

- **Advanced: Synthesis&Evaluation**
- **Teaching**

<b>TYPE OF THE ACTIVITY</b>	Video / Article
<b>DURATION</b>	50 minutes
<b>TEACHING AID</b>	Smart board, paper, internet connection
<b>SUMMARY</b>	<p>The aim of the activity is to raise pupils' awareness of women dedication to science and the respect and recognition of their accomplishments by society.</p> <p>Students will become familiar with the life of Prof. Ana Aslan, who became well known internationally through the development of the first drug created to delay the aging process, Gerovital H3.</p> <p>OTOPENI, Romania - The Ana Aslan National Institute of Gerontology and Geriatrics, founded by Prof. Ana Aslan, MD, in 1952, is the first Institute of Geriatrics and Gerontology in the world.</p>
<b>TEACHING PRACTICE (STEP BY STEP)</b>	<p>1. Brainstorming</p> <p>The activity begins with a short brainstorming about the gender stereotype "Hard science is still profoundly associated with masculinity". Examples ( Boys are more oriented towards science and practical activities, girls are more idealistic than boys, the number of successful men in sciences is higher, women cannot have a career, they have to take care of the family)</p> <p>2. Interactive debate</p> <p>Do you agree that there are no enough successful women in science? Can you argument why?</p> <p>Individually, the participants formulate points of view for and against the debated stereotype. Student will state, in a convincing way, both arguments/counterarguments.</p>
