## SUCCESSFUL WOMEN IN ARCHITECTURE (2)

<p><b>TEACHING PRACTICE (STEP BY STEP)</b></p>	<p>To learn more about successful women in architecture we will watch another documentary film. Thinking on how to share empowering stories about women who are making an impact on the built environment through architecture, we partnered with filmmaker Boris Noir who developed the concept for the documentary “Women in Architecture” featuring Toshiko Mori, Gabriela Carrillo, and Johanna Meyer-Grohbrügge. The project has been initiated by Sky-Frame to shed more light on the role of women in architecture, by increasing their visibility and empowering them to realize their full potential.</p> <p><a href="https://www.youtube.com/watch?v=-4qkozqsYfQ">https://www.youtube.com/watch?v=-4qkozqsYfQ</a></p> <p>Content exploitation: Based on the material you have seen, do you think it is still possible to talk about architecture as an exclusively male field? Results and occupational choices are based on interest and not on gender?</p>
